SERVICE ALBERTA

Service Alberta, Consumer Programs and Consumer Investigations Unit, work to ensure a fair marketplace for both buyers and sellers. We investigate consumer complaints, enforce consumer protection legislation, license and register regulated businesses and charitable organizations. Our department provides an appropriate regulatory framework and informs consumers and businesses of their rights and responsibilities.

Service Alberta provides resources on a number of topics, including the ones noted here. To see these resources go to <http://www.servicealberta.ca/consumer-protection.cfm>.

Consumer Investigations Unit investigates complaints from the public about consumer transactions – transactions between people and businesses covered by the laws for which Service Alberta is responsible. We do not investigate disputes between businesses. Our attention is focused on investigations where a business has frequently broken the law or where a large number of consumers are affected. The first step in any complaint process is to talk with one of our Information Officers in the Consumer Contact Centre.

The **Consumer Contact Centre** provides information on dozens of topics including landlord/tenant disputes, making purchases over the Internet and lodging a consumer complaint.

SERVICE ALBERTA CONTACTS

Consumer Contact Centre
